

Running Event Network Opportunity
Tuesday January 26, 2016
7:00 p.m. - 10:00 p.m.
Slaters 50/50 Huntington Beach, CA

USATF Southern California Association presents a Running, Track & Field Networking Event to highlight the [USATF Sanctioned Event Program](#) and inspire communication between stakeholders in the event planning and organizing process.

The invitees of this informal gathering include representatives from USATF, national governance board for the sport of running and track & field in the United States, Esix Global Insurance Representatives, Government Officials, local event organizers, community groups and other running event organizing stake holders.

The USATF [sanctioned event benefits](#) offer local groups an opportunity to host affordable competitive running events as fund raisers. The proceeds from the sanction fees are used to sustain local and national programs in the sport of Running and Track & Field. A “win-win” for both USATF and local organizations seeking to promote the sport and fund raise.

Come have a bite and learn more!
